Working With A *REALTOR*®

NEEDS VS WANTS

Before beginning your home search, determine what you and your family truly need in a new home. Your agent will be able to design your search based on that list.

PRE-APPROVAL

REALTORS® typically have lending partners they know and trust. The relationship between the lender and the agent is critical to the success of your purchase.

HOME INSPECTION

A professional home inspection can save you headaches when living in your new home. Your agent will have a list of qualified inspectors they trust.

NEIGHBORHOOD

Take the time to investigate the neighborhoods you're interested in. Be aware that there are questions about locations that REALTORS are not permitted to answer.

DETAILED APPROACH

Coordinating the details of buying and moving into your new home can be overwhelming. An experienced, full-time REALTOR® provides a full-service, detailed approach to make sure nothing slips through the cracks along the way.

Your *Home Search*

There are multiple ways to search for homes. In addition to online searches, our team has invested in top-notch technology to make searching for your new home easier and faster. In a market experiencing an inventory shortage, it's critical to have immediate access to both active and off-market options.

Raven (Exclusive Listings)

One of the best parts of working with an agent on a large team is the access to off-market listings. One of our software platforms that helps us share exclusive listings is Raven.

Raven operates similarly to a dating app where off-market listings are automatically matched to buyers' profiles based on their search criteria. The best part - it goes beyond Pemberton Homes by including our massive eXp Realty network. That means more exclusive listings for you to look at and more opportunity for you to find your next home.

OneHome (MLS Portal)

The most common way for real estate agents to search for homes is through the MLS. OneHome is the portal where we can automatically share listings with you that fit your criteria. We have the ability to adjust your search at any time and can make it as specific as you'd like.

The MLS is the best place to find accurate, up-to-date information on current active inventory. You can also mark a listing as a "favorite" or leave notes on listings for your agent.

Costs *of Buying*

EARNEST MONEY

This is "good faith" money held by the listing broker until closing. These funds will go towards the amount you owe at closing. This is normally at least 1% of the purchase price.

HOME INSPECTION

Home inspectors are hired by you to evaluate the condition of the home. Inspection costs typically start at \$500 and vary depending on the scope of services you request.

HOME APPRAISAL

A third-party evaluator will determine the market value of the home. Appraisal costs start around \$500, which you may pay at the time of appraisal or at closing, depending on the lender.

DOWN PAYMENT

This covers the difference between the amount of the loan and the purchase price. This number will vary depending on the loan product.

CLOSING COSTS

All other fees and costs associated with the home purchase (think taxes, title fees, and lender fees). These are estimated at 3% of the purchase price.

REMEMBER...

- Earnest money has to be deposited three days after an accepted offer
- Check with your lender for information on your amount owed at closing
- Closing costs are negotiable
